5 Pinwheel Craft

Make a pinwheel to catch the wind!

How to make it

1. Color both halves of each triangle with bright colors.
2. Cut out the square on the outer dashed line.
3. Cut along the 4 dashed lines, stopping at the circle.
4. Bend each corner with a dot into the middle. Don't fold it flat!
5. A grown-up pushes a pin through the middle into a pencil eraser.

Did you know? Wind is moving air. We can't see it, but we can see what it moves: leaves, kites, clouds and your pinwheel!

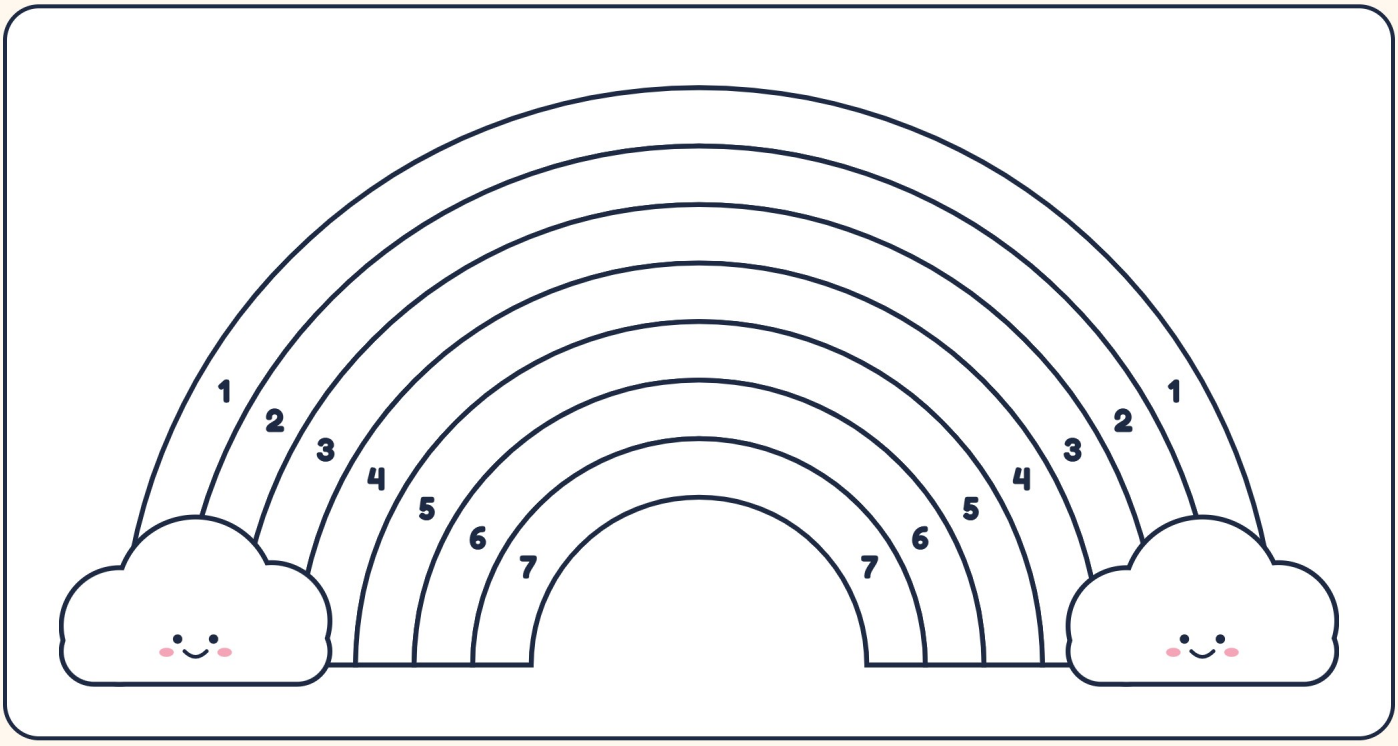

Take your pinwheel outside. How does it spin? Circle one.

Storm Safety

Circle the safe choices during a thunderstorm. Cross out the unsafe ones!

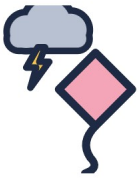

Go inside a building

Stand under a tall tree

Get out of the pool

Fly a kite in the storm

Wait 30 minutes after the last thunder

Keep playing ball outside

When thunder roars, go indoors!

Did you know? Thunder is the sound lightning makes. If you can hear thunder, lightning is close enough to be dangerous.

Stormy day kit: draw 3 things that help at home during a storm (like a flashlight!).
